Introduction and challenges

Step into the modern classroom – from anywhere

Technology has opened up a whole new world of learning, with modern teaching now expanded far beyond the four walls of the traditional classroom environment. Educators are able to connect with students on a global scale, providing consistent and collaborative experiences that can be accessed anywhere.

But new horizons present new challenges, and keeping classes connected and collaborative while ensuring the highest levels of security and accessibility are essential considerations when navigating modern learning experiences. Plus, devices for educational use need to be tough enough to keep up with the day-to-day rigors students put them through.

With over 30 years of developing nine-generations of purpose-built solutions for education, Dell Technologies is helping solve the unique challenges of modern learning:

	Ensuring devices are rugged and reliable for the rigors of everyday use – in and outside of the classroom.
	Delivering secure experiences for students and educators, wherever they're accessing education from.
	Flexible solutions, powerful peripherals and consistent experiences across devices and locations to empower learning and creativity.
	Supporting IT teams with easily repairable solutions and streamlined deployment to minimize downtime and disruption for learners and teachers.

Enhancing education and empowering students and teachers to do their best work – from anywhere.

Students

In The Classroom

For students to realize their potential they need access to the tools and technologies that make learning limitless. Empowering them to learn with solutions that provide heightened connectivity and collaboration, advanced accessibility features, flexible form factors and high-grade security – all in a package that's designed for durability – is essential for setting students up to succeed, today and into the future.

Create traditional learning spaces that use technology to empower, engage and inspire students. Interaction, collaboration and creativity bring learning to life, and education-focused solutions allow teachers to transform how they teach and level-up how their students learn.

Essential Education Chromebook

2-in-1 Touch-Enabled Chromebook

Essential Education Chromebook In the classroom

Chromebook 3110

Purpose-built for education, students can confidently power through every school day with Dual Core/Quad Core Celeron processors, up to 12 hours of battery life[1], up to 8GB RAM, and up to 64GB eMMC storage.

More

Dell Stereo Headset – WH1022
Ensure a comfortable and distraction-free learning experience with adaptive audio, adjustable noise-cancelling mic and accessible audio controls.

Dell Pro Slim Backpack – 15 PO1520PS
A built-in padded sleeve protects your Chromebook, while a range of internal pockets keep your educational essentials secure and organized. Reflective accents help keep wearers of this lightweight and comfortable backpack visible during low light hours.

Dell 75 4k Interactive Touch Monitor – C7520QT
Engage in highly interactive classroom learning with this 20-point touch-enabled monitor. Annotate and write using fingers and stylus, with Dell Screen Drop technology ensuring highly accessible interactivity for users of different heights.

Dell Compact USB-C Pre-Wired Charging Cart – 36 Devices – CT36UC20
Efficiently charge and store a whole class of devices and easily relocate between classrooms. Ergotron PowerShuttle 2.0 technology intelligently manages power distribution to your devices - optimizing charging time - and integrated locks and padlock options keep devices secure.

Bretford Element 36 Pre-Wired Cart - AC45791
Keep Chromebooks, laptops and tablets chargec and ready to go. The Element Cart features a sleek design, smart charging across devices, a secure locking system and world-class reliability

Students

Anytime, Anywhere

Technology has enabled learning and access to education to move outside of the four walls of the classroom environment into homes and outside spaces. Students are able to access resources, collaborate with peers and engage with teaching professionals on a global scale, and set their own schedules – meaning modernized learning happens anytime, anywhere.

Supporting students with on-demand access to learning resources empowers them to lead their own learning – anytime, anywhere. Flexible devices and consistent experiences built on communication and collaboration maximize student creativity, and the right peripherals create immersive learning environments outside of the traditional classroom.

Advanced Curriculum

Education serves to prepare students for the future, and higher productivity courses and dedicated subject pathways such as STEAM (science, technology, engineering, arts and mathematics) don't just prepare students for the future – they allow them to undertake projects that actively shape and advance the future of these disciplines.

Students engaging in advanced curricula need access to solutions and peripherals that can deliver the power and consistency they need. High-level problem solving and data analysis projects, as well as intensive collaboration and peer review demands, mean these learners benefit from technology-rich and future-facing solutions like VR and cloud computing that prepare them for their next steps.

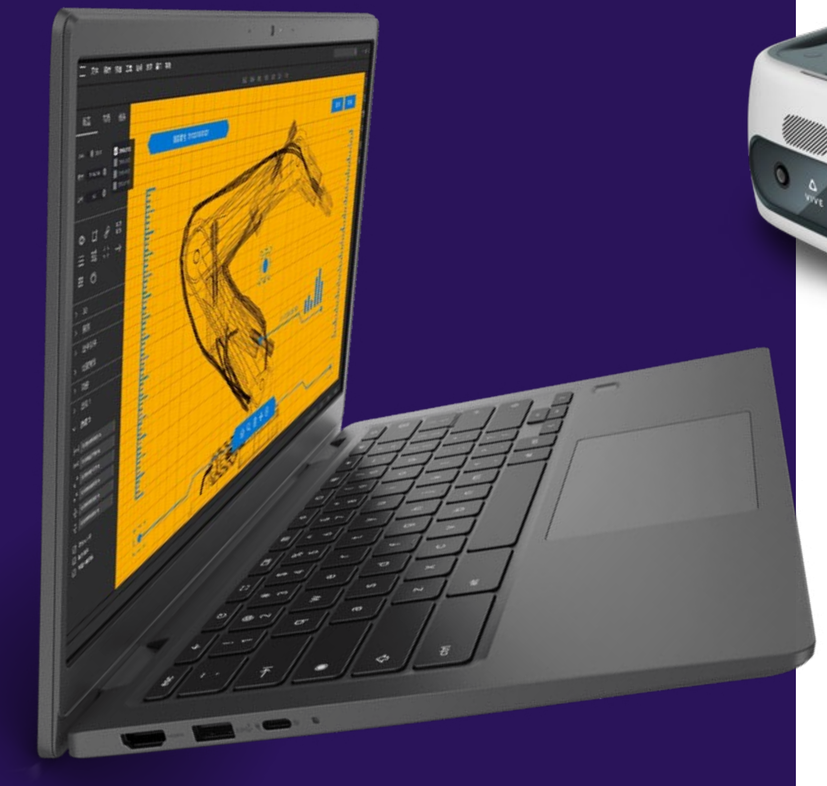

Scalable Chromebook

Scalable Chromebook – Advanced Curriculum

Latitude 3445 Chromebook

Built for speed and productivity, AMD Athlon and Ryzen processors deliver fast compute for even the most intensive workloads. Up to 256GB of SSD PCIe storage, up to 16GB dual channel LPDDR5 memory give you the power and space you need for complex projects, and a 54WHr battery will keep you productive, wherever learning is happening. Work confidently with intelligent, multi-layer security across hardware and OS layers.

More

HTC Focus Plus
The immersive potential of VR experiences bring learning to life. Visualize complex data sets, collaborate and plan with others in real time and attend lessons and seminars remotely with full immersion. Ultra-portable with enhanced comfort features for extended usage by a range of users. Interact with projects and classmates like never before.

Dell Speakerphone – SP3022
Enhance your effectiveness with True Stereo-Output and Full Duplex Audio allowing multiple participants to speak at once. AI Noise Cancellation reduces background noise distractions, and multiple connectivity options integrate seamlessly into your workflows and devices.

Dell Pro Wireless Keyboard and Mouse – KM5221W
Programmable shortcut keys give you quick access to your frequently used learning applications and functions, and the highly-durable keyboard includes incredibly quiet operation to minimize distraction.

Dell UltraSharp 27 USB-C Hub Monitor U2722DE
The 27-inch QHD, 2560x1440 resolution display allows you to see images with 1.77 times more detail than Full HD displays. Extensive connectivity including DP, HDMI, super speed USB and USB-C - while delivering up to 90W power - makes this a central connectivity and productivity hub.

Dell Pro Stereo Headset – WH3022
Reduce distractions with built-in noise cancellation and intuitive features like convenient call, volume and muting controls. Wear it your way with adjustable headband and mic-arm, and enjoy cushioned earpads to provide all day comfort.

Dell Pro Webcam 2K QHD – WB5023
Present with 2K QHD, 1440p image quality and AI-assisted Auto Framing that keeps you the center of focus. Communicate and collaborate clearly with automatic noise reduction and Facial Detection Auto Exposure (FDAE) that balances lighting for optimal image quality.

Dell Technologies Professional Learning Services

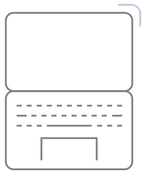

Chrome for the Classroom

Student Tech Crew

Uncommonly Tough. Unmistakeably Dell.

We've partnered with educators to understand the unique demands of their environments and build products that can withstand them. We put our Chromebooks to the test with extreme durability tests based on real-world evaluation, thanks to Dell engineers observing their use in the education space for months and even years.

Rounded corners and **rubberized edges** provide better drop protection

Purpose-built - Designed with rounded corners and rubberized edges to minimize impacts, Dell also offers screen protection. Dragontrail™ Pro glass (on the 2-in-1 device) provides scratch resistance, plus better drop protection for the screen

Tested to **withstand**

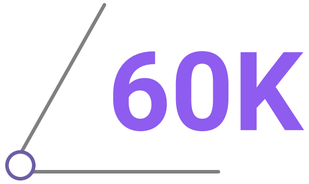

10,000

Micro-drops[2, 5]

4 in-drops on all 6 flat services and 4 corners

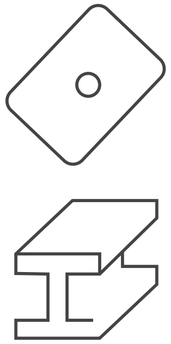

- **Micro-Drop Tests –** Dropping systems thousands of times at a variety of angles from a heigh of four inches simulates everyday student use for a period of 3 – 5 years[2,5]

HINGE CYCLE TESTS[2, 5]

60K

- **Hinge cycling tests –** We conduct tens of thousands of hinge cycle tests to simulate the accelerated life of the product, with students opening and closing their laptops far more than other users

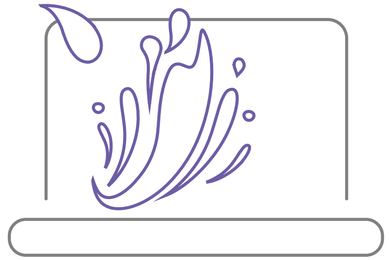

Tested to **withstand**

DROPS

FROM 30IN HEIGHT ONTO

STEEL[2, 5]

Drop Tests – Our educational notebooks survive 48-inch drops onto plywood and 30-inch drops onto steel to ensure they're resilient enough to survive impacts on a range of surfaces and keep working as hard as students and educators do.

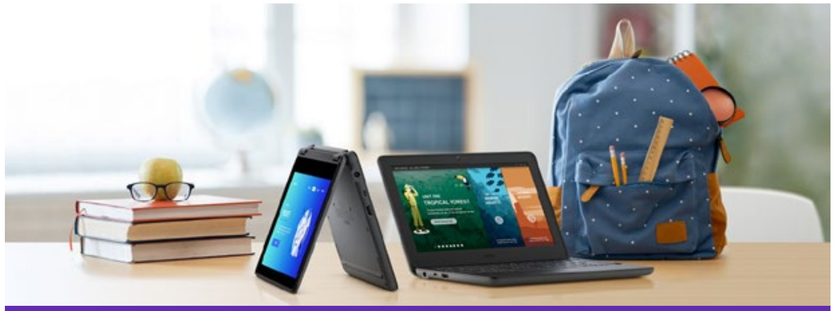

Tested to **withstand**

12oz[4]

Spill resistance – We've performed extensive spill-resistance testing to make sure our Chromebooks can withstand up to 12oz of fluid spilled onto the keyboard, without loss of learning or teaching time due to shutdown or dry-out period.

Tools for Teaching

Technology is now the most effective tool in the teaching kit, with educators at all levels using it to connect with and inspire students – wherever they're learning from. Our effective, tried and tested education solutions give teachers the tools they need to stay consistently connected and secure, providing access to applications and services wherever and whenever they're needed.

Engaging students – wherever they're studying from- requires solutions that are flexible and maximize mobility, connectivity, and provide consistent experiences. Teachers need solutions and peripherals that allow them to engage directly with students, to support personalized learning both inside and outside of the classroom. They need the power to connect and collaborate with peers and access administrative resources, anytime, anywhere.

Advanced Administration

With teachers and students connecting and collaborating from multiple locations – often outside of school grounds and hours – managing the technology needed to ensure consistent and productive experiences is a fresh challenge for educational administrators.

Administrators on-the-go need to be able to access files and work with large volumes of sensitive data securely and consistently, from anywhere. They need solutions that can move with them from classroom to classroom, in-person and remote meetings, and provide consistent experiences to aid planning and provisioning. Productivity tools and apps need to work seamlessly across devices in order to heighten communication and collaboration.

Campus Leadership

Whether you're a school leader, district superintendent or a curriculum supervisor, managing modernized education – and the solutions that enable it – requires you to have a comprehensive overview of often sensitive datasets and consistent communications. Working from multiple locations and connecting seamlessly with colleagues to strategize – often when dealing with tight deadlines – can only be achieved with the right tools for the job.

School and school district leadership play a crucial role in working to improve student success and in ensuring that all students have access to the technology and connectivity necessary to participate in authentic and engaging learning opportunities. Principals, superintendents, and chief technology officers work in an increasingly complex digital environment. It is critical that they are well-equipped to lead, engage, and inspire their stakeholders. Having the right technology helps them to work efficiently and effectively to manage, motivate, and innovate.

Chrome for the Classroom

First-in class accessibility, security and connectivity to empower modern learning

The unique needs of educational users – both inside and outside of classrooms – mean that Operating Systems need to balance ease of use, high-grade security and flexible connectivity to help teachers and students focus, collaborate and create without disruption.

ChromeOS for education is built to support every student throughout their learning journey, and to give educational IT teams and professionals peace of mind through top-tier security features, continuous updates and managed deployment and access to deepen classroom connections and keep user information safe.

Learn from anywhere
Students can access their apps and settings from any device, and work on projects collaboratively in real time. The Chromebook App Hub allows educators to discover and share the latest apps.

Simplified Deployment and Management
Managing thousands of devices and setting over 200 policies and commands has never been simpler. Adding users, devices, connections and peripherals can be performed from anywhere using the Google Admin Console.

Accessible for All
Versatile form factors suit all needs and budgets, and shareable devices can be used across multiple students and classrooms. Devices and access can be centrally managed from the Admin Console.

The latest security – always
Hands-off background updates install the latest security features automatically. Layers of data encryption and verified security checks on boot up keep users safe, wherever they're logging in from. Managed access puts IT in control of what users access.

Every student deserves a quality education and access to the tools they need to learn, create and collaborate. ChromeOS running on Dell Technologies Chromebooks helps to expand the modern learning experience to a wider, more diverse range of students and approaches to learning.

Students and administrators can access multiple built-in settings and apps to personalize ChromeOS experiences for individual learners – and these settings are consistent across devices.

- Enlarge all on-screen text and visuals every time you log in, and easily revert
- Screen Reader makes on-screen content audio accessible with synthesized speech
- High-contrast mode inverts screen/text colours for easier reading
- Type using a touchscreen or mouse, or use handwriting or dictation to enter information
- Closed captioning for videos that meets the latest standards
- Braille support for compatible braille displays

24/7 IT admin support at no additional cost

Dell Educational Solutions

Supporting the entire learning journey

Expert Guidance to help you Transform Teaching and Learning

We're proud to partner with schools and educators to not only provide the right technology to help them transform the future of learning, but also the support and services that students and staff need throughout the learning journey – and beyond.

Dell Technologies Professional Learning Services

Our Professional Learning Services are designed to help schools increase the capacity of teachers and leaders to create meaningful, successful learning environments for all students. Includes a mix of ongoing professional learning experiences, training and professional growth to positively impact teaching practices.

1. The stated Watt Hour (WHr) is not an indication of battery life. Battery life is based on Google Powerload test. Test results are for comparative purposes only. Actual battery life may be significantly less than the test results and varies depending on product configuration and use, software, usage, operating conditions, power management settings and other factors. Maximum battery life will decrease with time.
2. Based on Dell testing, December 2021.
3. Based on Dell testing, April 2023.
4. Water damage is possible if the product is submerged or exposed to large amounts of liquids for long periods of time. Dell's limited hardware warranty does not cover problems resulting from accidents such as water damage. Dell offers accidental damage coverage for an additional fee. To prevent water damage resulting from large spills or other accidents, Dell recommends tilting or shaking off excess liquid, wipe off and let dry.
5. Chromebook 3110 and 3110 2-in-1 only. Latitude 3445 Chromebook passes 15,000 hinge cycles and 3,000 micro drops. Latitude 3445 Chromebook data is based on Dell testing, April 2023.
